

Colure Haircare Rocks Vanessa Hudgens with Sexy Tousled Waves!

Today is the day for you to get that sexy tousled waves look. Why today? It's the first day of July – and the holiday is coming up fast. So you best get to your local beauty supply or hit the [Colure Haircare website](#) to get these great products so that you can rock the look that Vanessa Hudgens is working.

Sexy undone waves and tousled hairstyles are “haute fashion” this summer. [Colure's Texture Creme](#) can help you achieve the sexy beachy wave look: all it takes is the right attitude and a bit of product application.

Begin by cleansing & conditioning the hair with

- 1) [Colure's BodyVolume Shampoo and Conditioner](#).
- 2) Blot dry until damp, not wet.
- 3) Start with a dime size amount of the [Texture Cream](#) and work through damp hair beginning at the med length to the ends. Let sit a minute or two, then gently separate and loosen by using your hands.
- 4) For extra lift, apply a small amount to the roots.
- 5) Use a blow dryer and diffuser to create more volume.
- 6) To create tousled waves use hot rollers to set hair.
- 7) To complete your style, finish with [Colure's StyleFinish Holding Spray Plus](#) to support your style and to protect your color from the sun and heat.

This sexy undone hairstyle that can be worn on the red carpet or at the beach.

I love this look! I personally use several products from this line including

- 1) [Richly Moisturize Shampoo and Conditioner](#)
(I can feel the hair soak up the moisturizing ingredients as I work the products into my hair)
- 2) I “heart” [Shine Serum Plus](#). Thanks to [Beverly Hills Color Bar](#) for turning me onto this product. WOW!! Shine, smoothness and silky texture.
- 3) [Shine Spray Plus](#) is amazing! It holds my style all day and keeps up the shine and prevents frizz.

These products really deliver and here's the bonus to this line that will make you a firm believer in their products. 100% Vegan, 100% recyclable packaging, earth and people safe, no animal testing, no animal derived ingredients. The line is super-clean. It's full of certified organic botanicals. The 100% Non-Toxic organic chemistry means no sulfates, parabens, dyes, hydrofluorocarbons, propanes, petrolatums, denatured alcohols, and butanes. Bottom-line, it's good for your hair.
